Wherever the yield estimates reported at Insurance Unit (IU) level are abnormally low or high vis-à-vis the general crop condition, the Insurance Company (IC) in consultation with State Government can make use of various products (e.g. Satellite based Vegetation Index, Weather parameters, etc.) or other technologies (including statistical test, crop models etc.) to confirm yield estimates. If Insurance Company witnesses any anomaly/deficiency in the actual yield data (partial/consolidated) received from the State Government, the same shall be brought into the notice of State Department within 7 days from date of receipt of yield data with specific observations/remarks providing intimation to the GoI and anomaly, if any, may be resolved in the next 7 days by the Head of the Nodal Department for State Government. If the dispute is not resolved, the matter may be referred to the State Level Technical Advisory Committee (STAC) for dispute resolution. In case the matter stands unresolved even after examination by STAC, it may be escalated to the Technical Advisory Committee (TAC) (Central Level Committee) along with all relevant documents including minutes of the meetings/records of discussion and report of the STAC and Departmental Head. Reference to TAC can be made thereafter only in conditions specified in SOP. However, data with anomalies which is not reported within 7 days will be treated as accepted to the IC. The protocol of the timelines defined above

shall also be applicable to the actual yield data being provided by the State Department in batches, i.e. Crop-wise-District-wise lots of data and timelines for each batch of data shall be counted separately/batch wise. Unnecessary delay in the finalization of yield data will attract penal interest on due claim amount payable to the farmers as decided by the Departmental Head in the matter.

TAC/TA/STAC shall deliberate and examine the subject matter and indicate their views/decisions based on statistical/technological inputs and other related scientific and technical parameters as detailed in the SOP.

The SOP to deal with yield dispute cases is as under:

When to use this SOP: This SOP will be followed only when there is a dispute about the crop yield values between the State Government and IC and in the case when it remains unresolved at the Head of the nodal department level and STAC and has been referred to the Central Government Technical Advisory Committee (TAC), which in turn decides that the matter needs to be referred to a Technical Agency (TA). The dispute can be brought to the TAC, only in the case, where all of the following conditions are satisfied. All cases not falling in these criteria shall be decided by the head of Nodal Department with the approval of competent authority and their decision shall be final and binding on all concerned.

- a) There is more than 25% difference between the yield estimated by the State Government and the IC.
- b) There is sufficient documentary evidence that the CCEs have not been conducted in the required numbers and as per the standard protocol, in at least 20% area of the IUs for the particular crop in the cluster.
- c) The matter has been considered by STAC but could not be resolved at the State level.
- d) The IC has already carried out the technical analysis of the data in consultation of the State Government or in collaboration with Central/State/Empanelled agencies and has used satellite/model/weather data to support its claim.
